LEGISLATIVE ANALYSIS

*RESOLUTION URGING U.S. CONGRESS AND FLORIDA LEGISLATURE TO
APPROPRIATE \$1 MILLION FOR HURRICANE SHUTTERS FOR LOW INCOME
ELDERLY RESIDENTS*

Commissioner Rebeca Sosa

I. SUMMARY

Urging Congress to appropriate \$1 million dollars for hurricane shutters for low-income elderly residents, targeted specifically at persons residing in condominiums, townhouses, apartments and mobile homes

II. PRESENT SITUATION

Miami-Dade County's High Impact Residential Shuttering Program is funded in part by the State of Florida, Department of Community Affairs and Federal Emergency Management Agency (FEMA) that assists low income elderly homeowners with hurricane shutter protection for their homes. However, the program only covers single family, detached residences. This program excludes condominiums, townhouses, apartments and mobile homes.

III. POLICY CHANGE AND IMPLICATION

This would create a second hurricane shutter program that would target persons residing in condominiums, townhouses, apartments and mobile homes that would supplement the Miami Dade High Impact Residential Shuttering Program that only targets single family, detached residences.

IV. ECONOMIC IMPACT

Not yet determined.

V. COMMENTS AND QUESTIONS

Funds would enable low income elderly residents regardless of their "type" of residence to protect themselves and their property with hurricane shutters that would not otherwise qualify for the High Impact Residential Shuttering Program.

Would this program cover rental units owned by persons other than low-income elderly individuals?
